

Measuring a time other than 24 hours.

Your energy-costs-checker is programmed to measure 24 hours, but can be reprogrammed to measure for 7 or 30 days – or a period by your choice.

Press the keys START/TOP and TIME at the same time, until 1 day is showed in the display.

By pressing the key START/STOP you can now change between 7 days, 30 days, 0 days (means your choice of period from pressing START to pressing STOP) and return to 1 day.

When you have chosen the wanted period to Measure, press the keys START/STOP and TIME at the same time for a few seconds

Please notice: If you have programmed the energy-cost-checker To measure 1, 7 or 30 days, the measuring will start the moment you plug the unit in. The measuring stops automatically after the period chosen (you CANNOT stop the measuring by pressing the key START/STOP during the chosen period.

CONGRATULATIONS WITH YOUR NEW COSTMETER

WITH THE COSTMETER FROM SL-ELECTRIC YOU CAN SAVE LOTS OF MONEY

With the costmeter you can learn how much electricity your household products uses, now you can find and replace the most power using products.
